

Assent for School or Community Youth Participation in playtesting the playlists

Study Title: Sound Explorations: Piloting Music Learning Playlists

Investigator: Dr. Evan Tobias I work at Arizona State University.

I am asking you to take part in a research study because I am trying to learn more about your perspectives on activities and projects I am trying to develop to make “music learning playlists.” Your parent(s) or guardian(s) have given you permission to participate in this study.

If you agree, you will be asked to try out activities and projects designed for people your age that are shared on a website. You will then be asked to share your honest opinions and perspectives about the activities and projects in a survey. Some of you will also be asked to discuss your perspectives with your peers and teacher/mentor, which will be shared with Dr. Tobias.

You will also be invited to journal about your perspectives as you try out the activities and projects and some of you might be invited to create your own video logs (Vlogs) about your experiences and perspectives using the music learning playlists to share with Dr. Tobias via a private YouTube video. You do not have to be in this study. No one will be mad at you if you decide not to do this study. Even if you start the study, you can stop later if you want. You may ask questions about the study at any time. If you decide to be in the study I will not tell anyone else how you respond or act as part of the study. Your real name will never be used in the study.

Signing here means that you have read this form or have had it read to you and that you are willing to be in this study.
